Roadmap to Recovery

ISSUED BY THE OFFICE OF THE GOVERNOR | March 22, 2021

Healthy Washington - Roadmap to Recovery

County Approach

On March 11, 2021, Governor Inslee announced the Healthy Washington - Roadmap to Recovery plan will be transitioning from a regional approach to a county-by-county evaluation process. The governor also announced that a new third phase of the Roadmap has been added, and effective Monday, March 22, the entire state will enter Phase 3.

Metrics

Counties will be individually evaluated every three weeks. The evaluations will occur on Mondays with any possible changes taking effect Friday, with the first evaluation scheduled for April 12.

In addition to being individually evaluated, large and small counties will have different sets of criteria. If any county fails one or more of the metrics below, that county will move down one Phase in the Healthy Washington plan.

For large counties to remain in Phase 3, defined as counties with more than 50,000 residents, they must keep a 14-day average of new COVID cases at or below 200 per 100,000 residents, and a seven-day average of new hospitalizations per 100,000 at five or fewer.

Smaller counties, those with populations of 50,000 or less, must maintain a 14-day average of new cases at 30 or fewer, and a new seven-day hospitalization average at three or fewer.

COUNTY SIZE	INDICATOR	PHASE 1	PHASE 2	PHASE 3
Larger County	New cases per 100,000 population per 14 days	> 350	350 - 200	< 200
	New COVID hospitalizations per 100,000 population per 7 days	≥ 10	9.9 - 5	< 5
Smaller County (< 50k people)	New COVID cases over 14 days	≥ 175	175 - 100	< 100
	New COVID hospitalizations over 7 days	> 5	4.9 - 3	< 3

If at any point the statewide ICU capacity reaches greater than 90%, all counties will move down one Phase. The Department of Health always maintains the ability to move a county forward or backward at their discretion.
